This fall, make your contributions count!

Give to the Public Schools of Hawaii Foundation

- In its 25 years of helping Hawaii’s public schools, PSHF has generously donated more than $3.2 million to students and teachers.

- Approximately 98% of monies raised goes directly to schools and teachers, making a positive impact on teaching and learning in Hawaii’s Public School system.

- To promote science education, this year PSHF invested more than $300,000 to create a new science lab for Roosevelt High School, and supplemental training and equipment for all science teachers in the Roosevelt complex, including feeder elementary and middle schools.

Please help us, help our public school students.
